V Codes for Fertility Preservation

V26.42 Encounter for fertility preservation counseling

Encounter for fertility preservation counseling prior to cancer therapy

Encounter for fertility preservation counseling prior to surgical removal of gonads

V26.82 Encounter for fertility preservation procedure

Encounter for fertility preservation procedure prior to cancer therapy

Encounter for fertility preservation procedure prior to surgical removal of gonads

There are also some non-specific V codes that can be used for the rheum and MS patients.

Always use the CANCER diagnosis as the PRIMARY diagnosis and then the V code as the secondary!

Remember, these patients are NOT infertile so an infertility diagnosis should not be used.
